Introduction

Landmark's Freedom Baptist Curriculum is the most unique, Biblical, and educationally sound curriculum available today. LFBC is the only curriculum owned and operated as an integral ministry of a local, fundamental Baptist church; in fact, as far as we can tell, we are the first full-line curriculum for Christian day schools and homeschools to ever hold this distinction.

LFBC is a full-line curriculum. By this we mean that we provide all grades from pre-kindergarten through high school with all subjects: Bible, English & Spelling, History/Geography, Literature, Math, and Science.

This educationally sound and Biblically true program has proven itself in hundreds of Christian day schools and homeschools throughout America and Canada, and in several foreign countries. At the same time, it has maintained an economical cost below other publishing companies.

Bible Curriculum

The LFBC Bible program has been designed to lay a foundation for a lifetime of learning the Bible and following Christ. We do not try to appeal to every sector of Christianity since all our writers are fundamental Baptists. Bible-based doctrinal positions shine through all of our material, especially the Bible program. Unique but practical and important courses like *The Inspiration of the Scriptures* (B160), teaching on the preservation of the King James Bible, and *The Local Church* (B155), teaching on the institution which is God's plan for planet earth, give our high school students an important foundation which will prepare them for life as faithful proponents of the fundamental Baptist position.

Bible Memorization

You will find numerous examples of Bible memory work throughout the curriculum. Please note that the verses to be memorized are usually related to the material being

studied. We have not dropped Bible verses into each book to impress people. The purpose is to help the students relate God's Word to the subject content.

Scripture used in Landmark's Freedom Baptist Curriculum is only from the Authorized King James Bible (KJV), that God has preserved for the English-speaking world. When a quote is given from a corrupted version to expose its error, it will always be properly identified as to the text used.

Spiral Curriculum

The spiral design is one of the reasons LFBC users have had outstanding success in their long-term results and achievement testing. Our material introduces the students to a new concept, then repeats the same concept from a broader base at a later time in the year. In English and math, the same concept is introduced in the following school year from an even broader base for a deeper educational experience.

Communication Skills

Christians must be able to communicate effectively whether they are preachers, lawyers, salesmen, writers, or clerks. They must be able to tell the "old story" in a convincing manner that will result in changed lives since, Lord willing, many of them will become Sunday school teachers, preachers, bus workers, and personal witnesses. LFBC places a heavy emphasis upon writing and speaking with the emphasis becoming greater in the upper grades.

Analytical Thinking

Some Christian curricula have been characterized as "light," "quick," and "easy," but LFBC demands a better quality work from each student. Not satisfied with simply "filling in the blanks," we require analytical and original thinking. Essays, thought questions, reports, term papers, etc. are the norm in this

Introduction

program. (Of course, the Teacher/Parent is the key to the results.)

Social Relationships

LFBC recognizes the need for social interaction and the material is designed to accomplish this aim. Projects such as interviews, observations, outside research, etc. provide opportunities for students in Christian day schools and homeschools to combine academics with social activity.

Character Development

LFBC maintains that while academic knowledge and skills are important, character development is vital. Most students will eventually learn to do math, but if they are deficient in morals and principles, their whole lives will be affected adversely. It is more important to be honest and dependable than to be able to explain the Pythagorean Theorem or be an expert on the Middle Ages. We challenge students to become people with character and ability, but we teach that character is more important. Kindness, generosity, fairness, love, helpfulness, respect, and obedience are traits that are interwoven throughout the LFBC material.

Separate Literature Program

LFBC has taken the position that Christian young people should be exposed to the great literature of the past. This is done, not as a

weak part of the English program, but as a separate program in itself. After reading a great story, the student often memorizes a Bible verse that is applicable to the truth taught in the story.

Flexibility

LFBC is the only full-line program which can be used in an individualized (self-paced) setting or in a traditional mode. It is the most flexible curriculum available today.

The 36-Week Concept

The LFBC curriculum for grades 1 through 12 has been developed on a 36-week concept.

Each Studyguide is divided into 36 weeks of lessons. The student completes one week's work in each of the 36 weeks of the school year. The student then takes a quiz each week in each subject. The lesson-planning is already done making LFBC ideal for the homeschooling parent or the Christian Day School teacher! Each quarter has nine weeks which compose the four grading periods for the year. This concept allows a totally traditional, totally individualized, or a combination of the two instructional modes to be utilized by large schools or small schools/homeschools.

The Teacher's Kits in the Pre-Kindergarten and Kindergarten programs come with daily lesson plans which help with the scheduling of work on a daily basis.

Statement of Faith

Landmark's Freedom Baptist Curriculum is owned and operated by the Landmark Baptist Church of Haines City, Florida. Landmark Baptist Church is proud to be known as an old-fashioned, independent, King James, Baptist ministry.

Doctrinal Statement

We believe the Bible to be the inspired, the only infallible, authoritative Word of God and that He has preserved it for the English-speaking world in the Authorized King James Version.

We believe that there is one God, the source, support, and end of all things, eternally existent in three persons: Father, Son, and Holy Spirit.

We believe in the deity of our Lord Jesus Christ; in His Virgin Birth; in His sinless life; in His miracles; in His vicarious and atoning death; in His shed blood; in His bodily resurrection; in His ascension to the Father's right hand; and in His personal, premillennial return for His saints and with His saints at the Revelation.

We believe that man is totally depraved, a sinner (lost) by nature and by divine decree, therefore in need of the convicting and regenerating ministry of the Holy Spirit.

We believe in the personality of Satan; in his power and kingdom; in His wives; and in his judgment at the cross and his eternal destruction in Hell.

We believe in the present ministry of the Holy Spirit; that He convicts the sinner; regenerates the one who believes; indwells, seals, instructs, reproves, and guides the believer; that He fills and controls every life that is wholly yielded to Him.

We believe that salvation is the gift of God offered to man by His grace and received by personal faith in the Lord Jesus Christ.

We believe in the bodily resurrection of the saved unto "life" and the unsaved unto "judgment" and everlasting damnation.

We believe in the spiritual unity of believers in the Lord Jesus Christ, not in the organized unity sought by the "ecumenical" movement.

We believe in the special creation of the existing space-time universe and all its basic systems and kinds of organisms in the six literal days of the creation week and in the full historicity and perspicuity of the Biblical record of primeval history. This includes the literal existence of Adam and Eve as the progenitors of all people, the literal fall and resultant divine curse on the creation, the world-wide cataclysmic deluge, and the origin of nations and languages at the tower of Babel.

King James Version

At Landmark Baptist Church, we take the stand that the King James Version is the Bible which God has preserved for the English-speaking people. God has blessed the King

James Version for more than 400 years. It is the Bible of every revival among the English-speaking peoples of the world.

Pre-Kindergarten (K3)

PKTK – Teacher’s Kit Includes:

- Lesson Plans Manual with daily lesson plans

PKSK – Student’s Kit Includes:

- Daily Worksheets to correspond with lesson plans

Additional Notes

The Pre-Kindergarten program is made up of two major components: the Teacher/Parent’s Kit, and the Student’s Kit. The Teacher/Parent’s Kit may be reused from year to year. The Student’s Kit is consumable, meaning one will have to be purchased for each student each year.

The main academic areas of the Pre-Kindergarten program are as follows:

Bible — Students are taught a Bible verse beginning with each letter of the alphabet. The Teacher/Parent is encouraged to teach the Creation story and to read character-building stories based on figures in the Bible.

Reading Readiness — While not specifically designed to teach reading, the student who

completes this program will be thoroughly prepared to learn to read the following year. Reading Readiness incorporates colors, shapes, vocabulary-building pictures, as well as presenting each letter of the alphabet with its phonics sound(s).

Language Concepts — Students’ vocabularies will be developed through these activities. Most of the concepts deal with synonyms, antonyms, and prepositions enabling the student to communicate more proficiently, and to be ready to read and understand common words found in many sentences.

Numbers — Students will learn to count by rote, recognize numerals, count objects, and write numbers.

Special Activities — These activities make the LFBC Pre-Kindergarten program flexible and fun. Different activities take place each day in areas such as manners, story rug, music appreciation, art, table play, show and tell, health/safety, literature appreciation, and exercise activities to build coordination.

Additional Notes

LFBC is proud to present this first-class, academically sound, easy-to-use Kindergarten program, written and published by fundamental Baptists through the ministry of a fundamental Baptist church.

The Champion Baptist Kindergarten is made up of two major components: the Teacher/Parent’s Kit, and the Student’s Kit. The Teacher/Parent’s kit may be reused from year to year. The Student’s Kits are consumable, meaning one is needed for each student each year.

The main academic areas of the Champion Baptist Kindergarten program are as follows:

Phonics/Reading/Writing – This section is a complete, phonics-based reading and writing program. Students are taught the phonetic sounds of each letter, phonograms (letter blends of consonants and vowels), and rules

to remember phonics sounds. Sight Words and McGuffey “Tuffeys,” (tricky spellings found in English) which are essential for building the child’s reading vocabulary, are introduced throughout the entire year. Recognizing spoken phonics sounds is very important and much dictation work is done throughout the program, allowing the students to write what they hear. This section would not be complete without spelling, and the students are required to reproduce dictated words, spelled correctly, at an appropriate level.

Finally, *The Beginner’s Champion Phonics Reader* teaches students how to develop speed in their phonics reading. This introductory edition of the larger *Champion Phonics Reader* (also published by Landmark’s Freedom Baptist Curriculum) enables the Teacher/Parent to determine a reading mastery level for each student and to test and develop that child’s mastery level to improve speed in reading.

Numbers — We start with the basics and take students up through addition of sums of 10. Old-fashioned rote and drill are combined with games, activities, and first-class worksheets for an exciting introduction to arithmetic.

Bible — The alphabet verses are different from the ones learned in the Pre-Kindergarten program. In Weeks 27-36 the students will learn verses containing “precious promises” from God’s Holy Word. In addition, instruction is given to the Teacher/Parent for developing the verse into a Bible lesson. Each student will be taught God’s plan of salvation during the year.

Daily Topics — These activities make the LFBC Champion Baptist Kindergarten totally unique. Brief lessons are presented (on a different subject each day) in safety, health, science, history, and fine arts. During these lessons, the Teacher/Parent may use a wide range of discretion for what would be appropriate with the class or individual student being taught. Many Biblical truths are brought

out and the Bible-believing, pro-family, character-building truths of the traditional Judeo-Christian heritage will be introduced to our students at this young age. The result of

these foundational lessons will be familiarizing students with many ideas they will need in future years giving them a real head start in their Christian education.

Introduction to the LFBC English Program

The LFBC English curriculum is a back-to-basics program with a heavy emphasis on learning the parts of speech, diagramming, research papers, essays, and composition. The student's literacy skills are an absolute must in the LFBC program.

Spelling is included in Grades 1 – 8 providing “two-for-one” convenience and value.

The high school level English courses are titled as follows:

- E145 English I
- E150 English II
- E155 English III
- E160 English IV

E105 – English and Spelling 1

Complete Subject Set includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers

Additional Notes:

This Complete Subject Set is specifically designed to follow the Champion Baptist Kindergarten. The student's learning is guided by the original cartoon character, "Spencer Sparrow," who teaches important facts along the way.

Introduction to the LFBC History Program

No more “social studies,” but old-fashioned history and geography. (Social studies was a product of the secular humanists in the late 1930’s.) The root of the word history means “knowing.” It actually is a record of the affairs of mankind down through the ages of time. History provides us with examples of success and failure, of victories and defeats, and of great men with courage and character, as well as inhumane tyrants with cowardice and cruelty.

One responsibility of a good history program is to teach students to apply the lessons of history so that we are not doomed to repeat the mistakes of history.

History is a record that reveals the sovereignty of God in the affairs of man. It is a record of the human knowledge of the development in time and space of God’s divine plan for the universe. This concept recognizes that the universe was planned, created, sustained, and ordered by an infinite God. This we try to impress upon each student who studies one of our history courses.

The LFBC History courses are as follows:

- H110 The U.S. Presidents
- H115 Great American Heroes
- H120 Our Fifty United States
- H125 The Beginner’s American History
- H135 World Geography
- H140 Introduction to World History
- H145 U.S. History
- H150 World History
- H155 Culture Wars/Current Events
- H160 United States Government/Economics
- H250 Baptist History (Elective)

Introduction to the LFBC Literature Program

LFBC has developed a complete literature series for Christian day schools and homeschoolers. Our students are exposed to the greatest literature in the past 300 years starting with the McGuffey's Readers in kindergarten through the sixth grade. The McGuffey's recall an America where honesty, hard work, kindness, patience, obedience to authority, fairness, gentleness, and frugality were traits to be admired. This we emphasize in our literature program. The upper grades study *The Pilgrim's Progress* and *The Holy War* by John Bunyan, and other classics.

The LFBC Literature courses with titles are as follows:

- L135 Character-Building Stories and Legends
- L140 Character-Building Stories and Biographies
- L145 Character-Building Favorites
- L150 The Pilgrim's Progress
- L155 The Holy War

Complete Subject Set Includes:

- *The Pilgrim's Progress*
- Studyguide with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Additional Notes

LFBC students are privileged to read and study John Bunyan's incomparable classic Christian allegory, *The Pilgrim's Progress*. Read by more people than any other book throughout history (except the Bible), the student's spiritual insights will grow as a result of this year's experience. The writing style and vocabulary also develop the student's ability to read and understand the classic English of the King James Bible period.

The book is divided into weekly segments with review every nine weeks.

Bible memorization assignments are included in each week to correspond with the gist of the lesson from that portion of the allegory.

L155 – The Holy War

Complete Subject Set Includes:

- *The Holy War*
- Studyguide with 36 weeks of work

- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Additional Notes

The Holy War is another classic allegory by John Bunyan. In it Bunyan describes the battle of the ages for the souls of mankind. LFBC considers it of utmost importance to allow our students to develop their reading skills by studying classic Christian English literature of the King James Bible period. The spiritual truths taught in Bunyan's book are rich treasures.

There are thirty-five weeks in a continuing story with review sections every nine weeks.

Bible memorization assignments are included in each week to correspond with the gist of the lesson from that portion of the allegory.

Introduction to the LFBC Math Program

This solid program begins with the knowledge that God created everything and, because of this, order has resulted. It teaches that students can expect exactness, preciseness, and completeness in arithmetic/mathematics, just as they can expect it in God's creation. We start with the basic facts and proceed to the more complicated and abstract concepts in the upper grades.

The LFBC Math courses with titles are as follows:

- Week 33 Two-Digit and Three-Digit Multipliers
- Week 34 Two-Digit Divisors with Checking
- Week 35 Review of Weeks 1-18
- Week 36 Review of Weeks 19-34

M120 – Mathematics 4

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Material Covered

- Week 1 Place Value to Millions; Review of Addition, Subtraction
- Week 2 Review of Multiplication, Two-Digit Multipliers; Division: Checking Division
- Week 3 Money: Adding, Subtracting, and Multiplying; Division with Remainders
- Week 4 Fractions: Equivalent/Unequivalent, Reducing, Parts of Groups, Mixed Numbers
- Week 5 Measurements: English Liquid, Weight, and Linear; Measures of Time
- Week 6 Rounding Numbers; Rounding Money; Estimating Quotients
- Week 7 Averaging; Division with Two-Digit Divisor
- Week 8 Fractions: Adding and Subtracting, Mixed Numbers, Remainders as Fractions in Division
- Week 9 Review
- Week 10 Measurements: Metric Length, Weight, and Liquid; Two-Step Measurement Equations
- Week 11 Factoring
- Week 12 Fractions: Reducing, Proper and Improper
- Week 13 Multiples: Least Common Multiples; Least Common Denominators
- Week 14 Scale Drawings; Pictographs; Bar Graphs; Changing Improper Fractions
- Week 15 Fractions: Subtracting from a Whole Number
- Week 16 Fractions: Subtraction with Uncommon Denominators; Roman Numerals to 1000
- Week 17 Fractions: Multiplying with Cancellation, Multiplying with Whole Numbers
- Week 18 Review
- Week 19 Multiplying Fractions and Whole Numbers; Multiplying Three-Digit Factors
- Week 20 Time: Subtracting and Adding; Time Lapse
- Week 21 Introduction to Geometry; Geometric Shapes
- Week 22 Perimeter of Squares, Rectangles, Parallelograms, and Polygon
- Week 23 Concept of Area: Area of Rectangles and Squares; Points on a Grid
- Week 24 Divisibility Rules
- Week 25 Five Steps in Division; Checking Two-Digit Multiplication
- Week 26 Measuring Temperature; Line Graphs
- Week 27 Review
- Week 28 Decimals: Introduction
- Week 29 Decimals: Comparing, Adding and Subtracting
- Week 30 Decimals: Metric Measures
- Week 31 Decimals: Rounding
- Week 32 Money: Decimals and Fractions; Decimal Point in Division and Multiplication
- Week 33 Probability
- Week 34 Review: Place Value, 4 Processes; English and Metric Review; Rounding Whole Numbers
- Week 35 Review: Factoring; Fractions; Addition, Subtraction, and Multiplication of Fractions
- Week 36 Review: Perimeter and Area; Geometric Figures; Decimals; Money

M125 – Mathematics 5

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Material Covered

- Week 1 Place Value to Billions; Review of Addition, Subtraction, and Multiplication
- Week 2 5 Steps of Division, Two-Digit Divisor, Checking Division
- Week 3 Fractions: Adding and Subtracting, Mixed Numbers, Equivalent
- Week 4 Factoring; Fractions: Reducing, Proper, Improper
- Week 5 Multiples, Least Common Multiple, Addition and Subtraction with Uncommon
- Week 6 Fractions: Improper, Subtracting with Borrowing
- Week 7 Averaging; Roman Numerals; Division with a Remainder
- Week 8 Rounding to Nearest 10, 100, 1,000, 10,000; Estimating Money Amounts
- Week 9 Review
- Week 10 Measurements: English Linear, Weight, Liquid, Measures, Time; and Metric Measures
- Week 11 Simple Measurement Equations, 3 Digit Divisors, and 4 Digit Multiplication
- Week 12 Decimals: Comparing, Reading and Writing
- Week 13 Decimals: Rounding
- Week 14 Decimals: Addition, Subtraction, and Multiplication
- Week 15 Multiplication: Fractions, Fractions and Whole Numbers, and Mixed Numbers Fractions
- Week 16 Divisibility Rules, and Comparing with Greater Than/Less Than/Equal to Symbols
- Week 17 Algebraic Equations with Addition, Subtraction, Multiplication, and Division
- Week 18 Review
- Week 19 Division: Whole Numbers by Fractions, Fractions by Fractions, Mix Numbers & Fractions
- Week 20 Division: Fractions by Whole Numbers, Fractions by Mixed Numbers, and Mixed by Mixed
- Week 21 Line Graphs, Bar Graphs, Grids, and Scale Drawings
- Week 22 Geometric Ideas and Shapes
- Week 23 Perimeter and Area
- Week 24 Square Units, Convert: *km* to *mi*, *in* to *cm*, Order of Operations, and Temperatures below 0
- Week 25 Convert: Celsius to Fahrenheit, Fahrenheit to Celsius
- Week 26 Ratio, Probability, Making Change, and Time with Centuries and Millenniums
- Week 27 Review
- Week 28 Division: Decimals by Whole Numbers, Annexing 0's to Dividends, Rounding off Quotient
- Week 29 Repeating Decimals, Fractions as Decimals, and Multiplying by 100 and 1,000
- Week 30 Division: Decimal Divisor, by 100 and 1,000
- Week 31 Introduction to Percent, Decimals with Percent, and Percent as Fractions
- Week 32 Finding Percent of a Number
- Week 33 Finding Distance Using a Formula
- Week 34 Review
- Week 35 Review
- Week 36 Review

M130 – Mathematics 6

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Material Covered

- Week 1 Whole Numbers, Place Value, Rounding, Addition and Subtraction
- Week 2 Multiplication, Division, Divisibility Rules, and Roman Numerals
- Week 3 English and Metric Measures
- Week 4 Converting English & Metric Measures; Addition & Subtraction of Compound Measures
- Week 5 Prime and Composite Numbers, Factoring, Greatest Common Factors
- Week 6 Multiples, Least Common Multiples, Averaging
- Week 7 Fractions: Equivalent, Changing, Addition and Subtraction
- Week 8 Fractions: Borrowing with Subtraction, Multiplication, Division
- Week 9 Review
- Week 10 Ratio, Proportion, Rates, and Problem Solving with Proportion
- Week 11 Decimals: Comparing, Rounding, Addition and Subtraction
- Week 12 Decimals: Multiplication and Division
- Week 13 Decimals: Powers of 10, Fraction Equivalents, Measures
- Week 14 Percents: Percents as Fractions, Percents as Decimals, and Simplifying Fractions
- Week 15 Percents: With Fractions, Less Than 1, Of a Number, Over 100
- Week 16 Discounts, Simple Interest, Percent by Comparison, Comparing Measures
- Week 17 Percent of Increase or Decrease, Rate of Discount, Finding an Unknown Number
- Week 18 Review
- Week 19 Bar Graphs, Line Graphs, Circle Graphs, Finding Percent of Circle Graphs
- Week 20 Geometric Ideas and Shapes, Transformation of Shapes
- Week 21 Perimeter of a Square, Rectangle, and Other Polygons
- Week 22 Exponents and Area of a Square, Rectangle, and Triangle
- Week 23 The Circle – Radius, Diameter, Circumference, and Area
- Week 24 Using a Compass to Construct Congruent Lines and Angles
- Week 25 Using a Protractor to Measure Angles
- Week 26 Solid Figures, Volume of Rectangular Prisms, Triangular Prisms, and Cylinders
- Week 27 Review
- Week 28 Order of Operations, Changing Temperature of Fahrenheit or Celsius
- Week 29 Algebraic Equations
- Week 30 Introduction to Integers with Addition and Subtraction
- Week 31 Integers on a Coordinate Plane; Graphing: Shapes on a Coordinate Plane and Functions
- Week 32 Expressions and Equations with Integers, Multiplication and Division with Integers
- Week 33 Tithe, Faith Promise Missions Offering, Saving, Budgets
- Week 34 Review
- Week 35 Review
- Week 36 Review

M135 – Math 7

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Material Covered

- Week 1 Place Value
- Week 2 Comparing Numbers, Estimation
- Week 3 Divisibility Rules, Powers of 10
- Week 4 Prime and Composite Numbers
- Week 5 Fractions
- Week 6 Fractions
- Week 7 Fractions to Decimals, Ratio, Proportion, Solving Ratio
- Week 8 Percent
- Week 9 Review
- Week 10 Measures
- Week 11 Time
- Week 12 Frequency Tables
- Week 13 Graphs
- Week 14 Geometric Symbols
- Week 15 Polygons
- Week 16 Polyhedrons, Square Roots, Exponents
- Week 17 Polyhedrons, Roman Numerals, Biblical Measures
- Week 18 Review
- Week 19 Circles
- Week 20 Measuring Angles
- Week 21 Angles and Lines
- Week 22 Banking
- Week 23 Interest
- Week 24 Insurances
- Week 25 Comparative Shopping
- Week 26 Tithe and Budgets
- Week 27 Review
- Week 28 Expressions
- Week 29 Integers
- Week 30 Equations
- Week 31 Coordinate Planes
- Week 32 Inequalities
- Week 33 Trigonometry
- Week 34 Review
- Week 35 Review
- Week 36 Review

M140 – Math Foundations/Pre-Algebra

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Material Covered

- Week 1 Number System; Place Value
- Week 2 Review of Basic Functions
- Week 3 Prime and Composite Numbers
- Week 4 Fractions
- Week 5 Fractions
- Week 6 Decimals
- Week 7 Decimals; Ratios
- Week 8 Percent
- Week 9 Review
- Week 10 Graphs
- Week 11 Measurement
- Week 12 Geometry
- Week 13 Area
- Week 14 Surface Area
- Week 15 Volume
- Week 16 Angles
- Week 17 Triangles
- Week 18 Review
- Week 19 Algebra
- Week 20 Order of Operations; Algebraic Expressions
- Week 21 Integers
- Week 22 Integers
- Week 23 Equations
- Week 24 One-Step Equations
- Week 25 Multiple-Step Equations
- Week 26 Word Problems and Equations
- Week 27 Review
- Week 28 Inequalities
- Week 29 Exponents
- Week 30 Square Roots; Trigonometry
- Week 31 Calculating Square Roots
- Week 32 Trigonometry
- Week 33 Banking
- Week 34 Review
- Week 35 Review
- Week 36 Review

M145 – Algebra I

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Material Covered

- Week 1 What is Algebra?
- Week 2 Fractions
- Week 3 Operators; Exponents; Order of Operations
- Week 4 Sets; Number Lines
- Week 5 Multiplying Positive and Negative Numbers; Distributive Property
- Week 6 Properties
- Week 7 Open Sentences; Solution Sets
- Week 8 Compound Sentences; Graphing
- Week 9 Review
- Week 10 Using Properties
- Week 11 Algebraic Expressions; Words; Sentences; Inequalities
- Week 12 Finding Solution Sets
- Week 13 Using Properties of Multiplication
- Week 14 Simplifying Expressions
- Week 15 Multiplicative Inverses; Multiplication Property of Equality
- Week 16 Solving Equations; Multiplication Property of Zero
- Week 17 Review; Word Problems; Solving Equations
- Week 18 Review
- Week 19 Properties of Order
- Week 20 Subtraction of Real Numbers
- Week 21 Division of Real Numbers
- Week 22 Simplifying
- Week 23 Multiplication of Terms; Monomials and Polynomials
- Week 24 Working with Monomials
- Week 25 Binomials and Trinomials
- Week 26 Factoring Patterns
- Week 27 Review
- Week 28 Solving Equations with Factoring Patterns; Application of Equations
- Week 29 Fractions and Ratios
- Week 30 Sums and Mixed Fraction
- Week 31 Fractional Equations; Ratio; Percent; Proportions; Applications
- Week 32 Graphing Functional Relationships
- Week 33 Open Sentences in Two Variables
- Week 34 The Slope-Intercept Form; Direct Variation and Proportions
- Week 35 Linear Equation Systems
- Week 36 Review

M150 – Geometry

Complete Subject Set Includes:

- Studyguide with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Material Covered

- Week 1 Geometric Terms
- Week 2 Angles
- Week 3 Introduction to Postulates
- Week 4 Geometric Terms
- Week 5 Geometric Proof
- Week 6 Introduction to Theorems
- Week 7 Additional Postulates
- Week 8 Line Relationships and Conditionals
- Week 9 Parallel Lines
- Week 10 Introduction to Polygons
- Week 11 Preparation for Congruent Triangles
- Week 12 Proving Triangles Congruent
- Week 13 Using Congruent Triangles
- Week 14 Quadrilaterals
- Week 15 Beginning Geometric Constructions; Use of a Compass
- Week 16 Using Basic Geometric Constructions
- Week 17 Exterior and Interior Angles of Polygons
- Week 18 Ratio; Proportion; Similar Polygons
- Week 19 Similar Triangles
- Week 20 Segments Divided Proportionally
- Week 21 Radicals and Quadratics
- Week 22 The Right Triangle
- Week 23 The Pythagorean Theorem
- Week 24 Special Right Triangles
- Week 25 Introduction to Trigonometry
- Week 26 Introduction to Circles
- Week 27 Intercepted Arcs; Inscribed Angles
- Week 28 Advanced Construction
- Week 29 Introduction to Measurement
- Week 30 Areas of Plane Figures
- Week 31 Introduction to Solids
- Week 32 Surface Area of Solids
- Week 33 Volumes of Solids
- Week 34 Coordinate Geometry
- Week 35 Coordinate Geometry
- Week 36 Coordinate Geometry

M155 – Algebra II

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Material Covered

- Week 1 Set Relationship; Variables
- Week 2 Real Numbers; Axioms; Identity and Inverse Elements
- Week 3 Axiom Application; Adding, Subtracting Real Numbers; Multiplying, Dividing Real Numbers
- Week 4 Calculating Equations: Algebraic Equalities
- Week 5 Equations That Are Equal; Unions and Intersections
- Week 6 Using Algebra to Work Problems; Converting Story Problems to Numerical Expressions
- Week 7 Polynomials: Definitions; Factoring; Sums and Differences
- Week 8 Polynomials: Products and Quotients; Factoring Monomials from Polynomials
- Week 9 Factoring Polynomials
- Week 10 Using Fractions in Polynomials; Lowest Terms
- Week 11 Advanced Fractions: Dividing Polynomials; Building Fractions; Sums and Differences
- Week 12 Products and Quotients; Complete Fractions
- Week 13 Laws of Exponents; Zero and Negative Rational Exponents
- Week 14 Scientific Notation; Products and Factors; Radicals
- Week 15 Changing Forms of Radicals; Expanding Radicals
- Week 16 Complex Numbers: Products and Quotients of Complex Numbers
- Week 17 Equations; Conditional Equations
- Week 18 Solving Equations: Identities; Inequalities
- Week 19 Review: Solving Equations; Absolute Value
- Week 20 Review: Inequalities; Word Problems
- Week 21 Quadratic Equations: Completing the Square
- Week 22 The Quadratic Formula: Equations with Radicals; Equations in Quadratic Form
- Week 23 Two Variable Graphs: Graphing Ordered Pairs; Relations
- Week 24 Limited Distance Formulas: Determining Points from Slopes; Graphs of Inequalities
- Week 25 The Graphing of Quadratic Functions, Equations, and Inequalities: Conic Sections
- Week 26 Graphs and Functional Relationships
- Week 27 Equational Systems
- Week 28 Determinants
- Week 29 Applying Determinants to Real Equations; Other Methods of Solution
- Week 30 Sequences, Series, and Progressions
- Week 31 Progressions and Expansion; Scientific Notation; Exponents As Rational Numbers
- Week 32 Functions and Logarithms
- Week 33 Logarithms and Linear Interpolation
- Week 34 Logarithms in Action
- Week 35 Why Have We Been Studying Math?; Math History; Principles of Math
- Week 36 Review of First and Second Semester

M160 – Business Math

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Additional Notes

Business Math may be used during any year in high school. This practical course includes important information on Scriptural principles of personal finances including local church tithing, Faith Promise Missions giving, and conservative views of taxes and financial planning.

Material Covered

- Week 1 Percentages
- Week 2 Percentages
- Week 3 Percentages
- Week 4 Owning Your Own Car
- Week 5 Business Math Applied to Income
- Week 6 Business Math Applied to Income
- Week 7 The Christian's Financial Obligations to God
- Week 8 Banking
- Week 9 Review
- Week 10 Banking
- Week 11 Budgets and Credit
- Week 12 Budgets
- Week 13 Insurances
- Week 14 Insurances
- Week 15 Taxes
- Week 16 Real Estate
- Week 17 Utilities
- Week 18 Review
- Week 19 Taxes
- Week 20 Federal Income Tax Returns
- Week 21 Trade Discounts
- Week 22 Cash Discount, Prices and Bank Loan Notes
- Week 23 Filling Out Sales and Purchase Forms
- Week 24 Businesses and Their Operations
- Week 25 Businesses and Their Operations
- Week 26 Businesses and Their Operations
- Week 27 Review
- Week 28 Business Operating Expenses
- Week 29 Retail Gross Profit
- Week 30 Profit and Mark-Up
- Week 31 Mark-Up
- Week 32 Investments, Promissory Notes, and Bankruptcy
- Week 33 Making Wise Consumer Decisions
- Week 34 Auto Insurance
- Week 35 New Development in Business
- Week 36 Review

Introduction to the LFBC Science Program

This refreshing program gives a student a basic understanding of science from the Christian Biblical viewpoint as presented in the Word of God. A proper study of these concepts helps familiarize the student with the basic body of knowledge necessary to being an informed Christian in a world of technology.

The LFBC Science courses are as follows:

- S105 God's Wonderful Creations
- S110 Nature Science
- S115 Creation Day-By-Day
- S120 Our World: Scientific Facts
- S125 Beginner's Physiology & Health
- S130 Earth Science
- S135 Biological Science
- S140 General Science
- S145 Physical Science
- S150 Biology
- S155 Health/Dynamic Biblical Living
- S160 Scientific Creationism
- S255 Chemistry (Future Course)

S105 – God's Wonderful Creations

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers

Material Covered

Week 1	Crab: Male, Female, Design	Week 19	Air and Wind
Week 2	Crab: Home	Week 20	Rain and Snow
Week 3	Crab: Body	Week 21	Mouse
Week 4	Crab: Shell	Week 22	Cat and Dog
Week 5	Crab: Designed for Protection	Week 23	Chicken and Duck
Week 6	Crab: Feeding	Week 24	Pig
Week 7	Crab: Protection	Week 25	Bull and Cow
Week 8	Hermit Crab	Week 26	Horse
Week 9	By the Sea in Review	Week 27	Reviewing "On the Farm"
Week 10	Ant	Week 28	Bat
Week 11	Fly and Bee	Week 29	Chipmunk and Squirrel
Week 12	Queen Bees	Week 30	Beaver
Week 13	Work Bees	Week 31	Turtle and Tortoise
Week 14	Other Bees	Week 32	Frog and Snake
Week 15	Wasp	Week 33	Hooters and Hoppers
Week 16	Spider	Week 34	Elephant
Week 17	Spiders at Home	Week 35	Hippo and Rhino
Week 18	Insect World in Review	Week 36	Reviewing "Animals in the Wild"

S110 – Nature Science

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers

Material Covered

Week 1	Wasp and Mud Wasp	Week 19	Human Babies
Week 2	Digger Wasp and Spider	Week 20	Hookwing Family of Insects
Week 3	Spiders As Bridge Builders	Week 21	Ant: At Home
Week 4	More About Spiders	Week 22	Slave Ants, Wonder Ants
Week 5	White Butterfly, Honey Bee, Harvest Fly	Week 23	Ant, Worm
Week 6	Moth, Caddis Worm, Mosquito	Week 24	Worm: At Work and At Home
Week 7	Housefly, Tracker Fly, Leafcutter Bee	Week 25	Housefly
Week 8	Butterfly, Gallfly	Week 26	Fly
Week 9	Grasshoppers, Moths	Week 27	Beetles
Week 10	Owl, Squirrel, Beaver, Chicken, and Duck	Week 28	Rose Beetle, Stag Beetle
Week 11	Coats: Fish, Bird, Mussel, Moth	Week 29	Stag Beetle, Water Beetles
Week 12	Spring; Cocoon, Moth; Description, Purpose	Week 30	Whirligig Beetle, Barnacles
Week 13	Kingbird, Robin, Ant	Week 31	Barnacles, Sea Plants
Week 14	Flea, Beetles, Mayfly	Week 32	Jellyfish, Starfish
Week 15	Tumble Bugs, Bee, Praying Mantis	Week 33	Sea-urchin, Dragon-fly
Week 16	Lady Bug, Quail, Measuring Worm	Week 34	Dragon-Fly: Stages Of Growth
Week 17	Firefly, Bee, Earthworm	Week 35	Dragon-Fly: Types, Food, Description of Wings
Week 18	Humming Bird, Hawkmoth, Snail, Dragon-fly, Earwig	Week 36	Review

S115 – Creation Day-by-Day

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers

Material Covered

Week 1	The Creation	Week 19	Day 6: Reptiles
Week 2	Day 1: Light Waves and Particles	Week 20	Day 6: Amphibians
Week 3	Day 1: Time; Matter	Week 21	Day 6: Insects
Week 4	Day 1: The Physical Laws	Week 22	Day 6: Mammal Characteristics
Week 5	Day 2: The Atmosphere	Week 23	Day 6: Carnivores
Week 6	Day 2: Water	Week 24	Day 6: Primates
Week 7	Day 2: The Sea	Week 25	Day 6: Mammals of the Bible
Week 8	Day 2: Weather; Climates	Week 26	Day 6: Mammals of the Bible
Week 9	Review of the First Two Days	Week 27	Review of Days 1 – 6
Week 10	Day 3: Dry Land	Week 28	Day 6: Man
Week 11	Day 3: Plants	Week 29	Circulatory & Respiratory Systems
Week 12	Day 4: Inner Planets	Week 30	Digestive System
Week 13	Day 4: Outer Planets	Week 31	Skeletal System
Week 14	Day 5: Fish	Week 32	Nervous System
Week 15	Day 5: Sea Mammals	Week 33	Sight and Hearing
Week 16	Day 5: Sea Animals	Week 34	Touch, Taste, and Smell
Week 17	Day 5: Birds	Week 35	Day 7: God Rested
Week 18	Review of Days 1 – 5	Week 36	Review of Days 1 – 7

S120 – Our World: Scientific Facts

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Additional notes

Each week's work begins with vocabulary. A Glossary allows the students easy access to definitions. Bible memory assignments are part of each week's work.

Material Covered

Week 1	What Is Science?	Week 19	The Solar System
Week 2	What Is Light?	Week 20	Our Moon
Week 3	What Is Sound?	Week 21	Space Travel
Week 4	Ultrasonics	Week 22	Soil
Week 5	What Is an Atom?	Week 23	Plants
Week 6	What Is a Molecule?	Week 24	Plants and Fungi
Week 7	Basic Chemistry	Week 25	Insects
Week 8	Putting Chemistry to Work	Week 26	Animal Growth and Development
Week 9	Review of Weeks 1 – 9	Week 27	Review of Weeks 19 – 26
Week 10	Simple machines	Week 28	Conservation of Natural Resources
Week 11	Magnets	Week 29	Protecting Our Wildlife
Week 12	Electricity	Week 30	The Skeletal and Muscle Systems
Week 13	Putting Energy to Work	Week 31	The Circulatory System
Week 14	Nuclear Energy	Week 32	Your Senses
Week 15	What Is Water?	Week 33	The Nervous System
Week 16	The Atmosphere and Weather	Week 34	The Respiratory System
Week 17	Forecasting Weather and Storms	Week 35	Your Behavior
Week 18	Review of Weeks 10 – 17	Week 36	Review of Weeks 28 – 35

S125 – Beginner's Physiology & Health

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Additional Notes

Most weeks begin with vocabulary and end with outside activities or a report.

Material Covered

Week 1	Introduction To Physiology	Week 19	The Real You
Week 2	The Skeleton, Part 1	Week 20	Know Yourself
Week 3	The Skeleton, Part 2	Week 21	Living with Others
Week 4	The Skeleton, Part 3	Week 22	Making and Keeping Friends
Week 5	The Brain and Nerves	Week 23	Good Grooming
Week 6	Breathing, Part 1	Week 24	Hygiene
Week 7	Breathing, Part 2	Week 25	A Good Social Appearance
Week 8	Hygiene of the Lungs	Week 26	Good Health
Week 9	Review of Weeks 1 – 8	Week 27	Review of Weeks 19 – 26
Week 10	The Blood	Week 28	Nutrition
Week 11	Hygiene of Circulation	Week 29	Exercise
Week 12	Food	Week 30	Caring for Your Teeth
Week 13	Digestion	Week 31	Safety
Week 14	How We Move	Week 32	What to Do In an Emergency
Week 15	The Covering of the Body	Week 33	Enemies of Good Health
Week 16	Special Senses, Part 1	Week 34	Community Health
Week 17	Special Senses, Part 2	Week 35	Your Responsibility as an Individual
Week 18	Review of Weeks 10 – 17	Week 36	Review of Weeks 27 – 35

S130 – Earth Science

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Additional Notes

Each week begins with vocabulary and ends with a report or an activity based on material covered during that week. Bible memory assignments are also included in each week.

Material Covered

Week 1	Introduction to Earth Science	Week 19	Water
Week 2	Energy	Week 20	Oceans and Seas
Week 3	Fire and Heat	Week 21	Fresh Water
Week 4	Magnetism	Week 22	Water Cycle
Week 5	Electricity	Week 23	Conservation of Water
Week 6	Light	Week 24	Winds
Week 7	Colors	Week 25	Weather
Week 8	Sound	Week 26	Severe Weather
Week 9	Review	Week 27	Review
Week 10	Composition of the Earth	Week 28	Climate
Week 11	Inner structure of the Earth	Week 29	Polar Climate Zone
Week 12	Rocks	Week 30	Temperate Zone
Week 13	Minerals	Week 31	Tropic Zone
Week 14	Fossil Fuels	Week 32	Rain Forests
Week 15	Soil	Week 33	Grasslands
Week 16	Land forms	Week 34	Deserts
Week 17	Volcanoes	Week 35	Temperate Forests
Week 18	Review	Week 36	Review

S135 – Biological Science

Complete Subject Set Includes:

- Two Studyguides with 36 weeks of work
- Studyguide Answers
- Weekly Quizzes
- Weekly Quiz Answers
- Quarter Tests
- Quarter Test Answers

Additional Notes

Each week begins with vocabulary. Reports are required on material covered in certain weeks. Several experiments that can be done at home are included in different weeks. A verse is learned each week having to do with the information given.

Material Covered

Week 1	Introduction to the Life Sciences	Week 19	Reptiles, Part 1
Week 2	Non-Vascular Plants	Week 20	Reptiles, Part 2
Week 3	Lichens and Bryophytes	Week 21	Birds, Part 1
Week 4	Vascular Plants	Week 22	Birds, Part 2
Week 5	Gymnosperms	Week 23	Mammals, Part 1
Week 6	Angiosperms	Week 24	Mammals, Part 2
Week 7	Flowers and Reproduction	Week 25	Mammals, Part 3
Week 8	Flowering Plant Processes	Week 26	Mammals, Part 4
Week 9	Review	Week 27	Review
Week 10	Invertebrates	Week 28	Introduction to the Human Kingdom
Week 11	Simple Worms	Week 29	Skeletal System
Week 12	Mollusks and Echinoderms	Week 30	Muscular System
Week 13	Arthropods	Week 31	Circulatory System
